

Nordic Green Building
Councils' Conference 2013
31.1.–1.2.2013, Helsinki, Kaapelitehdas

Sustainable Development of Existing Building Stock – Best Nordic Practices –

Nordic GBC Conference 2013 introduces the best Nordic practices for renovation, maintenance and use of buildings. We also step aside from the buildings, and take a look at energy production & distribution, in addition to examining the economical outputs of green buildings.

Welcome to join our community and to put your hands on concrete, existing solutions!

Plenary sessions

- Sustainable Renovation Concepts
